These guidelines outline the way we want our brand and our business to be seen by the world.

We have tried to articulate a clear, inspiring and shared vision of what we stand for – to engage with all our audiences and to inspire everyone internally to rally behind our new brand.

We want to be the best in the business. We've listened to our customers, we know what we are good at, and now we have a brand that can help us drive our performance forward to build growth for our business.

How we communicate our brand will be key to our success. These brand guidelines will help to ensure that the InterCasino family of brands is delivered in a style that is consistent and compelling.

We operate in a very competitive and crowded market, and we know that we have to be distinctive and different to consistently attract and retain customers. In a world of bland chains, the unique, unusual, and intriguing brands really capture people's imagination. This is why we are putting the idea of individuality at the heart of our brand.

All great brands start with an idea
and we have defined ours as:

One of a kind

On line gamblers have so much choice, with many sites offering very similar experiences. We are using our brand to stand out from the crowd, and create a unique entertainment destination that will appeal to the hearts and minds of more and more players.

Unsurprisingly, all customers want technical excellence, brilliant back up service, great promotions and a large selection of entertainment. Our brand has to deliver all this in an intriguing, unusual way that will make us memorable and attractive. One of a kind.

We are determined to be the stylish alternative to the bland 'me too' look-alike mainstream casino brands. We need to be 'boutique' in the hotel sense of the word. Being 'one of a kind' will help our brand to communicate difference, aspiration, service, quality and fun.

The values that drive our business are:

Commitment to Excellence
Integrity
Clarity
Passion
Individuality
Style
Entertainment

In business, as in life, actions speak louder than words. Hence, we are what we do.

What we stand for is increasingly important to our consumers and our colleagues. It is important that we have a clear idea of what InterCasino stands for. These values have to be part of every aspect of the brand and should be reflected in all elements of our service, behaviour and communication, internally and externally.

We believe that a business that is anchored by these values will be a good place for our employees to work, a great place for our customers to play and a profitable business venture for our investors.

The InterCasino brand is:

Experienced and Professional
Approachable and Attentive
Distinctive and Stylish
Energetic and Fun

The Intercasino brand is not:

Misleading, arrogant, bland, boring, stuffy, aloof, confusing, middle of the road.

Projecting a distinct personality in a market crowded with bland operators will give us a big competitive advantage.

Our brand personality defines the way our customers see us, our attitudes, beliefs and spirit. The way we project ourselves is hugely important. Our association with innovation has shaped our brand into what we are today but our success for the future depends on building a richer personality that will enhance our reputation with all our customers.

2.8 Logo alignment and positioning

InterCasino Logo Free Standing

Our logo as a freestanding entity can be centred or ranged to one side.

InterCasino Logo Align Top

InterCasino Logo Align Below

The body-copy of any print document should always align with the letter 'I' in the InterCasino logo. Accordingly the black diagonal stripe element of the logo can extend to the corner of the page and beyond.

The logo is usually ranged left at the top of a page or ranged right at the bottom of a page for advertising and promotions but the identity is versatile enough to allow exceptions.

InterCasino Logo Align Top from Page Corner

The logo fits directly into the corner of the page for stationery applications (see proportions below).

2.12.1 Graphic Device – The Stage

This 50/50 split is a key holding device that is as important to our brand as the logo itself. We use the black and white 50/50 split as a background for our brand in all our promotions and we do not change the ratio. Any promotional images that appear on the black area always have a reflection in the white area.

2.12.2 Graphic Device – The Zing

This zing of lime is a diagonal stripe device that adds energy and colour to our brand. On the 'brand stage' it acts as an opening for promotional imagery to burst through. It can be used as a static element or as a moving feature, and adds a dynamic flourish to any promotion.

2.15.1 Imagery – Black and White Photography

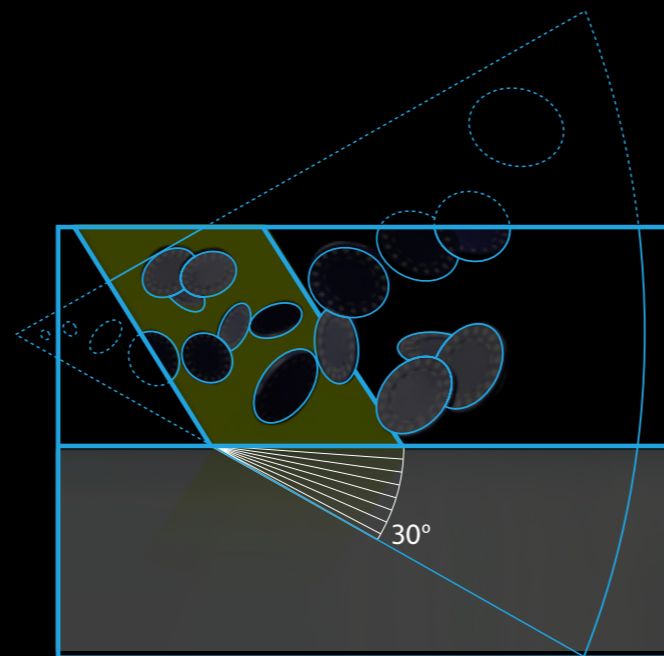

In the black area of 'the stage' we always use black and white imagery to give a glossy sophisticated feel to the brand. The style of photography should always be graphic, interestingly cropped, with images that capture a moment of excitement. On the black background these images are 'knocked back'.

2.15.2 Imagery – Out of the ‘Zing’

Colour imagery is used for promotional content. The 3D effect of images bursting through the zing is an important element of our house style. Images bursting out of the zing will often be used as cut outs and will be action based. Always try to ensure that the images have energy and direction so that their impact works well when bursting through the zing.
